

Product info

The OMA outdoor metering centres are suitable for use as a main and metering centre in small properties and for electricity distribution during construction. The centres are made of hot galvanised steel plate that, together with the right design, guarantees a sturdy and safe structure and good usability. The delivery includes a sealing cover for the main fuse, a tariff control fuse, the necessary feed-through holes, Al/cu connectors for supply and a rain shelter.

Technical details

Electrical number	3312370	Main switch (A)	40
	Al/Cu 2,5-50mm ²	Breaker 1-pole C16	4
Ue (V)	230/400	Breaker 3-pole C16	1
In (A)	25		25
IP	34		1
fn		Reserved (mod)	4
Icw	<10kA	Installation	Surface
Material	Cu-Zn
